Prompt option 2: *Who have you met during your internship that has made an impact on you, and why?*

I met a college intern named Arden for a brief discussion during Intern's Choice, and it was very insightful and opened me up to a whole field of study that I might be interested in in the future. He also helped me by detailing the differences in in-state CS programs and how they've impacted him, and also some projects I might consider doing.

Prompt option 3: *Describe a challenge you encountered during your internship and how you approached overcoming it. What did you learn from this experience?*
