**Prompt option 3:** *Describe a challenge you encountered during your internship and how you approached overcoming it. What did you learn from this experience?*

A challenge I encountered during my internship was coding in VS code. I am not very experienced in coding and it is by far not one of my strong suits. I was able to take advantage of my mentor and his experience of coding and help develop my website. We were able to meet during one of my intern's choice sessions and he was able to help us further develop my website making it more user friendly and visually appealing. I learned many skills I had not know before while meeting with my mentor and this has been very helpful.
